

# insDLJS example

Raymond Chen

August 23, 2022

a demonstration of the insDLJS package, please make sure to open this document using Adobe Acrobat® Reader, and have the speaker volume turned up.

```
\begin{insDLJS}[test]{test}{JavaScript}
function script()
{
    tts.speaker = tts.getNthSpeakerName(0);
    tts.qText ("Hello , testing Java script speaker.");
    tts.talk();
}
\end{insDLJS}
```

```
\begin{document}
...
\begin{Form}
\PushButton[name=anyname, onclick={script();}]{\faVolumeUp}
\end{Form}
...
\end{document}
```

```
tts.getNthSpeakerName(1)
```

```
\OpenAction{/S/JavaScript/JS(script();)}
```

```
\usepackage{insdljs}
\usepackage{fontawesome}
\usepackage{hyperref}
\usepackage{listings}
```
